

The Certificate of Advanced Academics provides SDOHS students with the opportunity to showcase their academic excellence and dedication. The certificate will supplement their diploma and serve as an indication of their rigorous course work above and beyond the district requirements. It allows students to showcase college readiness, 21st century skills, and elevate themselves above Arizona's standard high school graduates. This distinction celebrates their academic talents and commitment to excellence.

The certificate is awarded at graduation and reflects four years of advanced course work and service learning. The requirements are designed to honor truly advanced learners and acknowledge the time and dedication it takes to pursue a four-year program of advanced course work and commitment to their communities.

Sandra Dav O'Connor

Expect the Best. Get the Best. Be the Best.

Interested seniors should complete the application below by February 11, 2022 and notification of receipt of their Certificate of Advanced Academics will be announced at the Senior Awards Ceremony in May.
