

Deer Valley Unified School District's *Summer Mandarin Experience*

Campers will have fun participating in a variety of activities designed to promote language learning! Through songs, games, and hands-on activities, students will learn new vocabulary, interact in the target language, and engage in meaningful communication! In addition, students will participate in Chinese arts and crafts projects which incorporate the themes and culture, allowing students to express their creativity while being immersed in the language. *Note: These camps are for students currently enrolled in the Mandarin immersion program at Desert Sage or Gavilan Peak schools.*
